CE1872R – Canyon Edge Recycled Plastic Gabion-Style 6' Linear Bench

6' long gabion-style bench with recycled plastic seat planks.

Material

The 6' gabion-style bench is composed of 1.5" x 3.5" recycled plastic seat planks. The bench cage is constructed from a frame that is 10-gauge, carbon steel and type 304 stainless steel mesh panels with a .1875" wire diameter. The frame features 2" slots that accept 3/8" anchors for surface mounting to prevent movement. The bench is designed to support 200 lbs. per linear foot.

The planks are 95% recycled content by weight and are impervious to moisture and corrosion, do not require the application of sealants or preservatives, and will never need painting or staining throughout the product's life.

Finish

Fade resistant, powder coated steel and stainless steel components feature a state-of-the-art primer proven to prevent rusting. Treated components exceed the industry standard by 34% in testing by independent sources.

Color

See website or sales representative for color choices.

Assembly

The bench requires some assembly; stainless steel assembly hardware is included. The seating surface ships pre-assembled.

Maintenance

The product is virtually maintenance-free and requires periodic cleaning with a sponge and a solution of mild detergent and water to remove surface dirt. Do not clean with solvent or petroleum base products.

Warranty

20-year limited structural warranty with 7-year warranty against fading; 3-year finish warranty against rusting, peeling, chipping, cracking, mold and mildew on cage frame and mesh panels from date of purchase. See full details on multi-year warranties for components at www.anovafurnishings.com/warranty.aspx.
