

LBRCPSURF

Marquee Bike Post, Surface Mount

Material

The bike rack is composed of 2.38" O.D. x 10-gauge wall steel tubing. The legs have a 5" diameter mounting plate.

Features

The bike rack can accommodate 3 bicycles and is protected by the patented Fusion Advantage™ finish. The bike rack is designed to be surface mounted using pre-drilled holes in the mounting plate to prevent movement. **Mounting hardware is not included.**

Finish

Fusion Advantage is a heat fused pastisol coating with an average .125" thickness that creates an impervious rustproof barrier and resists UV deterioration, mildew, staining and fading. Plastisol is then encapsulated with a richly tinted, high-performance powder coating that won't rust, fade, peel, chip, crack, mold, or mildew. The finish has been tested to the requirements of ASTM E1354 and is in compliance with California Uniform Fire Code 1103.2.1.4.2.

Assembly

This product requires no assembly except for the surface mounting.

Color

See website or sales representative for color choices.

Maintenance

The product is virtually maintenance-free and requires only periodic cleaning with a sponge and a solution of mild detergent and water to remove surface dirt. Do not clean with solvent or petroleum base products.

Warranty

20-year limited structural warranty with 7-year finish warranty from the date of purchase. See full details on multi-year warranties for components at anovafurnishings.com/warranty.
Manufactured in the U.S.
