Shading

Umbrellas | Umbrella Bases

With heavy-duty fiberglass umbrella ribs that flex without breaking, these high performance umbrellas are tested to withstand up to 50 mph winds. The marine-grade acrylic fabric canopy features a sewn-in vent that resists fading and mildew. Umbrellas feature a strong aluminum pole available in two lift system styles.

Maryville Center, St. Louis, MO. Umbrellas 7SPPWM shown in natural. Tables AE26T48, Chairs AE26T60STX, and bench AE2680STX shown in black and textured charcoal.

ANOVA®
